Railways Meeting

Vitória, Brasil

28 – 30 April 2010

VALER – Centro de Excelência em Logística (CER) - VALE

The main objective of the **“Railways Meeting”**, in its second edition, is to promote the knowledge exchange between the Brazilian Railways, by means of the presentation of technical and scientific works developed in companies, in the rail industry and in the academic field.

The central thematic of the event **“Challenges of the Brazilian Railways facing to the international economic recuperation. Creativity, one alternative in front of the economic recuperation”** treated topics related with the permanent search of the efficiency in costs to demands of the level of services required by market.

Some of the topics treated:

- Operations;
- Rolling stock;
- Permanent track;
- Signaling, Automatization and Tracks' technology;
- Purveyors' of the Rail Area.

Vossloh South America participated in this event in character of Bronze Sponsor. There it presented the different business units of Vossloh Grout by means of the Conference provided in the mark of the Official Program of the Railways Meeting.

As a result of this participation, it is possible to say that the objective has been reached not only in the strategic level in terms of communication, but also in commercial terms, with a propitious market so particular like the Brazilian, “playing as locals” by being really in focus and efficient in those aspects.

Principal information of the event:

- Organization: MF Editor.
- Duration: 3 days (conferences and technical visits).
- Participants: 460 pax.
- Institutional Support: ABIFER, SIMEFRE, CNT, ANTF.
- Participant companies:
Silver Sponsorship: IAT, Amsted/Maxion, ALL, FCA, FTC, Transnordestina, Vale.
Bronze Sponsorship: Vossloh South America, Petrobras, Alstom, Voith.
